

Wax Thermal Transfer Ribbon 2000 Series

3nStar Wax thermal transfer ribbon formulated to print up to 12 inches per second. Provides superior printing quality and higher resistance to static and scratches than conventional wax ribbons.

General Specifications	W05BK11074	W10BK110300	W10BK110450
Qty Per Box	100	24	24
Dimensions	110mm x 74mt	110mm x 300mt	110mm x 450mt
Core Size	1/2"	1"	1"
Ink	Outside	Outside	Outside
Color	Black	Black	Black
Type	Wax	Wax	Wax
Ribbon Specifications			
Color	Black		
Type	Wax		
Base Film Thickness	4.5-4.8µm		
Density	>1.9		
Printing Speed	2-12 Inch per Second		
Sensitive	10		
Heat Resistance	5		
Abrasion Resistance	4		
Solvent Resistance	4		
Environmental			
Storage Temperature	5°C ~ 35°C		
Storage Humidity	20% RH ~ 80% RH		
Ink Melting Point	70°C		
Film Melting Point	256 - 265°C
