

# SC305

## WIRELESS 1D SCANNER

### USER MANUAL

# SC305

### Introduction

This is a Quick Start manual. The full programming manual is available for download at [www.3nStar.com](http://www.3nStar.com) or contact your local dealer.

### Installation

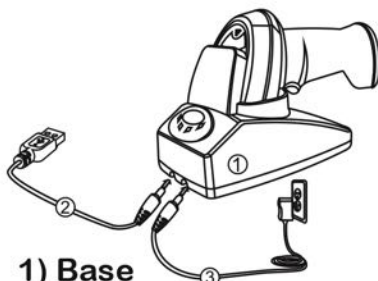

Connect the base to the computer and place the scanner on the base. When all of the LEDs are ON, the base is ready to receive data. Keep the scanner on the base to recharge the unit when it is not in use. There are 4 LEDs on the base: Ready=Orange, Charge=Green, Data=Blue,

### USB Connection

**NOTE:** Charging the scanner through the USB port takes more time than direct AC adapter charging.

### Accessories

- 1) Base
- 2) Data cable
- 3) AC adapter

### Factory Default and Pairing

- 1) Scan Factory Default

- 2) Disconnect and reconnect the scanner case from the PC.

- 3) While the power and data LEDs are blinking, scan the following bars:

o Scan RF MODEL

o Scan PAIRED ADD

- 4) Wait for the LEDs to stop blinking. After configuration, the Power LED remains ON, and the Data LED remains off. The scanner is now ready.
